

# The Living Research Web

From PDFs to Living Science Apps

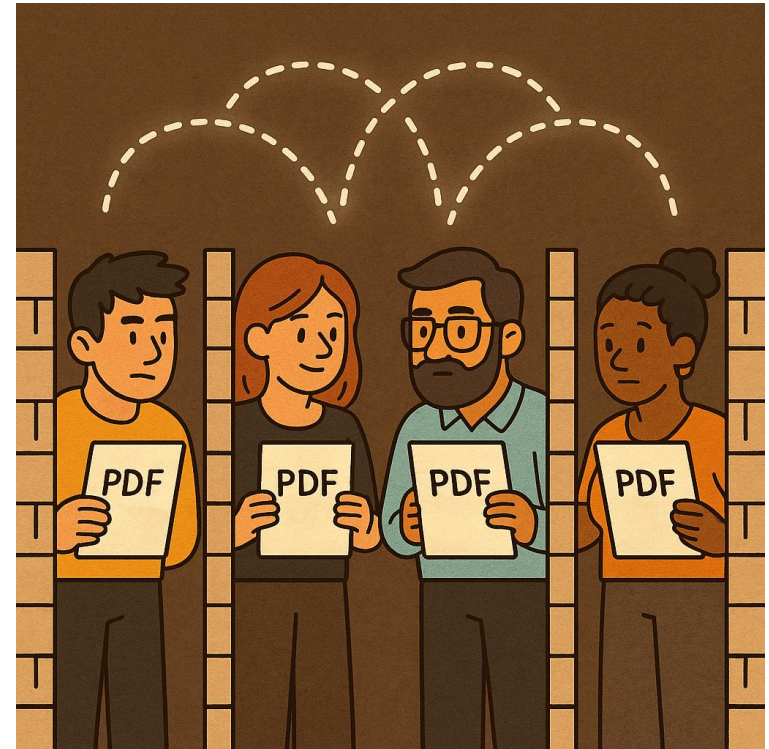

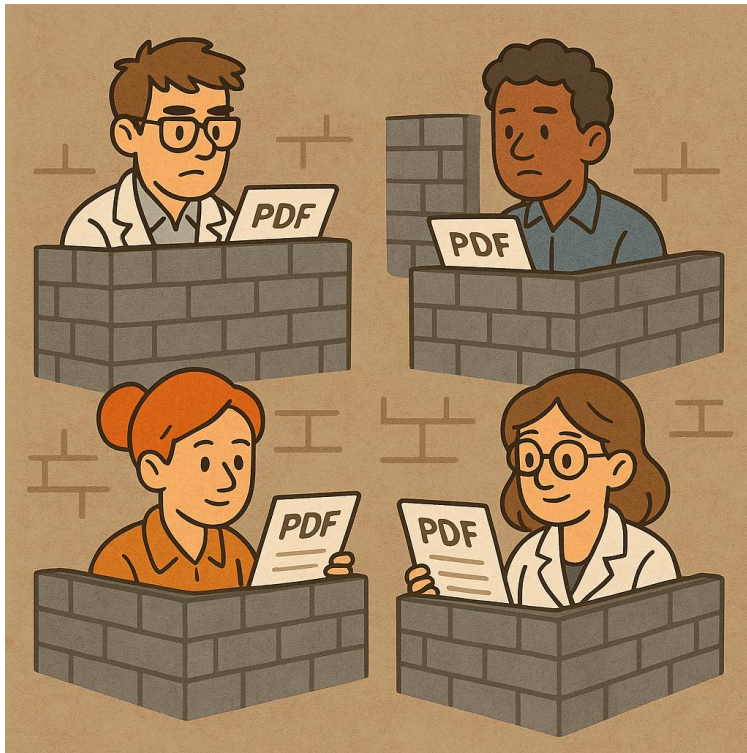

# The Human Story

- Humanity thrived by collaborating.
- Clans shared fire, tools, and knowledge.

# The Old Era of Science

- Today, science is locked in PDF silos.
- Researchers struggle to replicate and collaborate.

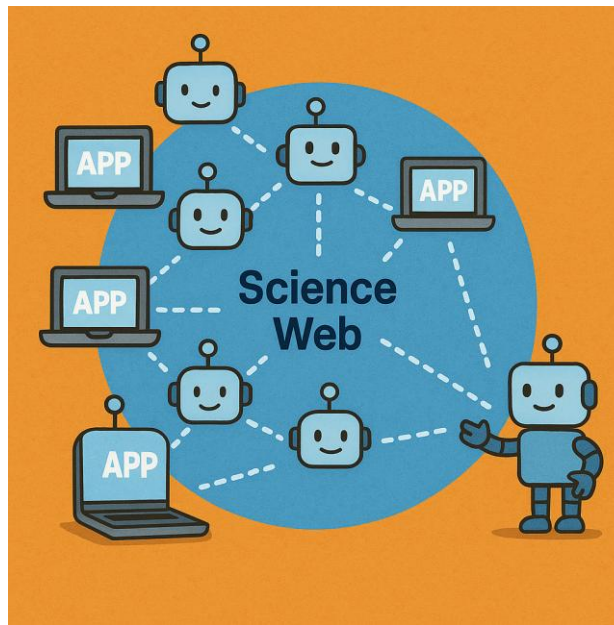

# The New Era

- Each project becomes a living app.
- Workflow: Discover → Run → Build upon.

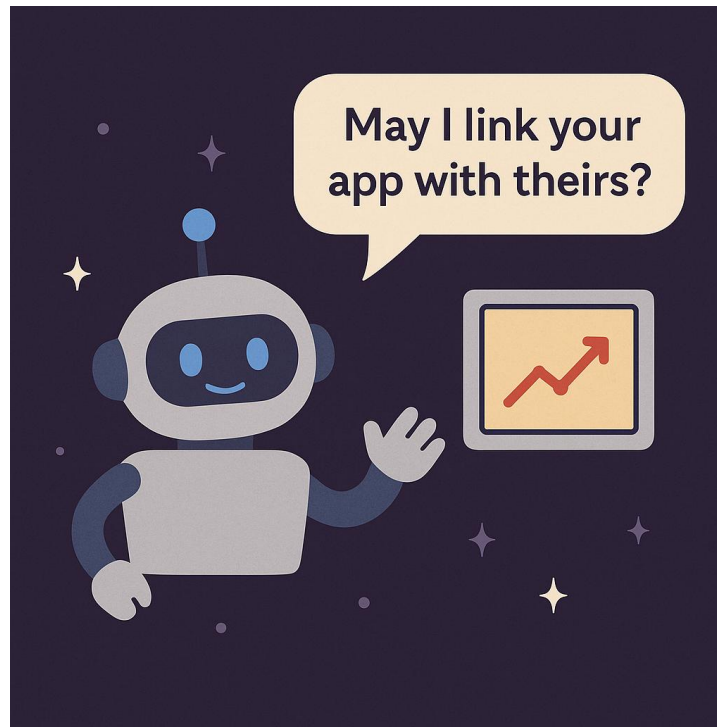

# Agents as Collaborators

- Every app has its own AI agent:
  - - Finds connections
  - - Requests permission
  - - Builds bridges

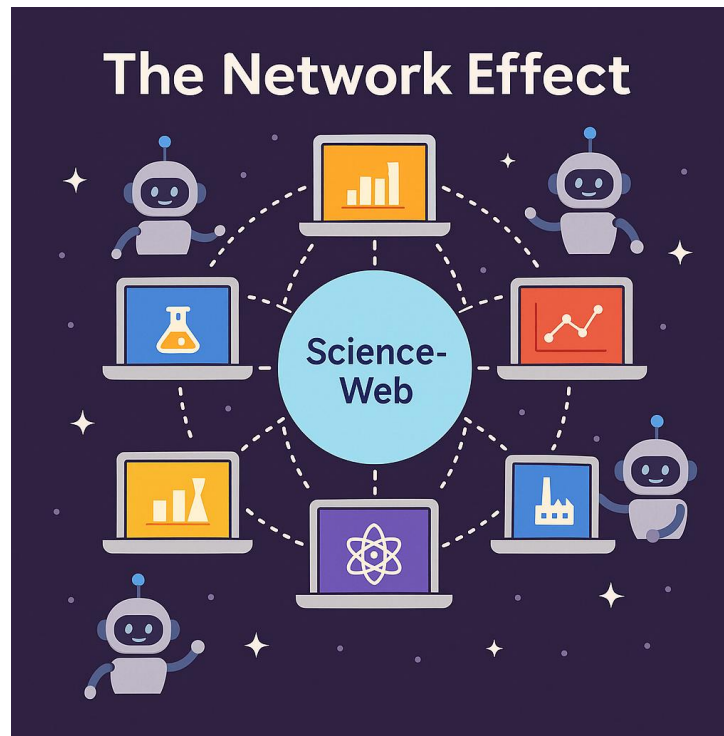

# Permission & Control

- Collaboration must be respectful.
- Agents always ask:
- “May I link your app with theirs?”

# The Network Effect

- More apps → Stronger network
- Faster discoveries
- Measurable impact

# The New Clan

- This is the new clan of humanity:
- - Not bound by geography
- - Not slowed by PDFs
- - Science alive, connected, accelerated

# Closing

- From static science → The Living Research Web
- A new era of collaboration begins.
